

A diagram of a four-pointed star (a rhombus) with vertices labeled  $a_1$ ,  $a_2$ ,  $a_3$ , and  $a_4$  in yellow. The edges are labeled  $dL_1$ ,  $dL_2$ ,  $dL_3$ , and  $dL_4$  in yellow. A red line segment connects the two vertices labeled  $dL_2$ .

## Time-point 2

**time\_num**      **total\_objs**      **area(optional)**  
**dist**

1	4	dL1	a1
1	4	dL2	a2
1	4	dL3	a3
1	4	dL4	a4
2	3	dL1	a1
2	3	dL2	a2
2	3	dL3	a3
